Viad Corp Announces First Quarter Results

Net Income per Share of \$0.48
Income Before Other Items per Share of \$0.49

PHOENIX--(BUSINESS WIRE)--April 29, 2011--Viad Corp (NYSE:VVI) today announced first quarter 2011 net income of \$9.8 million, or \$0.48 per diluted share. Viad's income before other items of \$10.0 million, or \$0.49 per diluted share, excludes net restructuring charges of \$165,000 after tax. This compares to the company's prior guidance of income per share of \$0.25 to \$0.40 and the 2010 first quarter loss before other items of \$0.02 per share.

- **Revenues of \$290.1 million** were up \$65.7 million (29.3%) from 2010.
- **Segment operating income was \$17.3 million** as compared to \$199,000 in 2010.
- **Free cash flow improved by \$10.0 million** to \$11.9 million, primarily due to higher net income.
- **Cash and cash equivalents were \$148.4 million** at March 31, 2011.
- **Debt was \$8.9 million**, with a **debt-to-capital ratio of 2.2%** at March 31, 2011.

Paul B. Dykstra, chairman, president and chief executive officer, said, "Viad's first quarter 2011 earnings reflect better than expected results from our Marketing & Events Group. U.S. base same-show growth was 13.6 percent, driven by initiatives from our realigned sales force and an improved economy and industry conditions. Overall exhibitor spending was strong, and we had solid execution from our team. Our Travel & Recreation Group met our guidance for its seasonally slow quarter. Our entire organization remains focused on driving continued growth in revenues and profits by capitalizing on market opportunities and leveraging the productivity gains we made during the past two years to further increase efficiencies and drive down costs."

Viad's Marketing & Events Group

For the first quarter of 2011, Marketing & Events Group results improved substantially compared to the 2010 quarter, with revenues and operating income increasing by \$67.4 million and \$19.1 million, respectively, driven primarily by the U.S. segment.

U.S. segment revenues and operating income increased \$62.3 million and \$18.0 million, respectively, from the 2010 quarter. The substantially improved results were driven primarily by positive show rotation of \$40 million, base same-show revenue growth of 13.6 percent, greater penetration of discretionary exhibitor spending and increased spending by corporate clients.

First quarter International segment revenues increased \$3.6 million and operating income increased \$1.1 million. Positive show rotation impacted revenues by \$2 million, and foreign exchange rate variances had a favorable impact on revenues and operating income of approximately \$2.2 million and \$196,000, respectively, as compared to the 2010 first quarter.

Dykstra said, "The Marketing & Events Group performed well during its seasonally strongest quarter of the year. U.S. base same-show revenue increased for the third straight quarter as many shows saw greater exhibitor participation, and we were successful in capturing additional discretionary spend from exhibitors while focusing on great execution and customer service."

Viad's Travel & Recreation Group

Travel & Recreation Group revenues and operating results for its seasonally slow first quarter were in line with the company's prior guidance and down \$1.7 million and \$2.1 million, respectively, from the 2010 quarter. Results for the 2010 quarter included higher revenue from transportation business related to the 2010 Winter Olympic and Paralympic Games. Additionally, foreign exchange rate variances had a favorable impact on revenue of \$329,000 and an unfavorable impact on operating results of \$184,000 as compared to the 2010 first quarter.

Dykstra said, "The Travel & Recreation Group met our expectations for the first quarter. Our main focus during this time is on preparing for the busy summer season and controlling costs. We look forward to the segment's substantial contributions to operating income during the second and third quarters."

2011 Outlook

Guidance provided by Viad is subject to change as a variety of factors can affect actual results. Those factors are identified in the safe harbor language at the end of this press release.

Dykstra said, "The Marketing & Events Group realized stronger than expected revenue growth during the first quarter, which was our biggest quarter of the year and our greatest opportunity to sell unidentified business. We expect full year base same-show growth to be in the mid-single digits. We also expect the Marketing & Events Group to return to profitability in 2011 as a result of modest industry growth, positive show rotation, greater penetration of exhibitor discretionary services and the cost structure and efficiency gains we made during the past two years."

"The Travel & Recreation Group is expected to have another strong year in 2011. The addition of Grouse Mountain Lodge earlier this year gave us a year-round presence in the market and will help to offset the impact of temporary room closures at our Many Glacier Hotel, part of which will be under renovation during the 2011 season and will reopen for the 2012 season. The Travel & Recreation team remains focused on its initiatives to enhance the guest experience and capture additional spend per guest."

2011 Full Year Guidance

Marketing & Events Group

- **Total revenues** are expected to increase at a high single-digit rate compared to 2010.
 - **Base same-show revenues** are expected to increase at a mid-single-digit rate in the U.S. as year-over-year comparisons become more difficult in the back half of the year.
 - **Annual show rotation**, which refers to shows that occur less frequently than annually, is expected to positively impact full year revenues by approximately \$10 million. Quarterly show rotation also includes annual shows that shift quarters from one year to the next.

First quarter show rotation positively impacted revenues by \$42 million.

Second quarter show rotation is not expected to have a meaningful impact on revenues.

Third quarter show rotation is expected to negatively impact revenues by approximately \$30 million.

Fourth quarter show rotation is not expected to have a meaningful impact on revenues.

- **Segment operating results** are expected to return to a profitable level driven by increased revenue, partially offset by higher performance-based incentives, as well as merit increases that did not occur in 2009 or 2010.

Travel & Recreation Group

- **Revenues** are expected to increase at a high single-digit rate from 2010, reflecting continued improvement in tourism demand as well as the acquisition of Grouse Mountain Lodge, which will more than offset the lost room nights at Many Glacier Hotel due to construction.
- **Operating margins** are expected to decrease slightly from 2010 as a result of high flow through on lost room nights at Many Glacier Hotel.

Corporate & Other

- **Corporate activities** expense is expected to approximate \$7 million.
 - **Exchange rates** for the remainder of the year are assumed to approximate \$1.03 U.S. Dollars per Canadian Dollar and \$1.62 U.S. Dollars per British Pound. Currency translation is expected to favorably impact income per share by approximately \$0.07.
 - **The effective tax rate** is assumed to be 38 to 39 percent, as compared to the 2010 effective tax rate on income before other items of 37 percent.
-

2011 Second Quarter Guidance

For the second quarter, Viad's income per share is expected to be in the range of \$0.10 to \$0.20. This compares to second quarter 2010 income before other items of \$0.17 per share. Revenues are expected to be in the range of \$228 million to \$247 million as compared to \$218.3 million in the 2010 second quarter. Segment operating income is expected to be in the range of \$5 million to \$9 million as compared to \$7.7 million in 2010. The revenue increase from 2010 is expected to be driven primarily by expected increases in trade show marketing spend (including continued same-show growth), favorable foreign exchange rate variances and greater penetration of exhibitor discretionary services. Foreign exchange rate variances are expected to impact revenues and operating income by approximately \$6 million and \$800,000, respectively, compared to the 2010 quarter.

Implicit within this guidance, are the following group revenues and operating income expectations:

(\$ in millions)

	Group Revenues				Group Operating Income					
	Low End		High End		Low End		High End			
Marketing & Events Group	\$	205	to	\$	220	\$	1.5	to	\$	5.0
Travel & Recreation Group	\$	23	to	\$	27	\$	3.0	to	\$	4.5
