Viad Corp Reports Results for the 2022 Fourth Quarter and Full Year

- Pursuit delivered record revenue and GES outperformed expectations in 2022
- Delivered strong 2022 results through strategic focus on scaling Pursuit and improving GES' profitability
- Growth expected to continue in 2023 with fewer COVID restrictions on international travel and acceleration of new Pursuit experiences

SCOTTSDALE, February 9, 2023 -- Viad Corp (NYSE: VVI), a leading provider of experiential leisure travel and live events and marketing experiences, today reported results for the three months and year ended December 31, 2022.

Financial Highlights

(in millions)	Three months ended December 31,			Year ended December 31,		
	2022	2021	Change	2022	2021	Change
Revenue	\$ 248.0	\$ 183.6	\$ 64.5	\$ 1,127.3	\$ 507.3	\$ 620.0
Net Income (Loss) Attributable to Viad**	(5.7)	(22.5)	16.8	23.2	(92.7)	115.9
Net Income (Loss) Before Other Items*	(25.5)	(22.5)	(3.0)	12.3	(81.6)	93.9
Consolidated Adjusted EBITDA*	(2.0)	(3.8)	1.8	116.1	1.3	114.8

- Revenue increased by \$64.5 million for the quarter and \$620.0 million for the full year driven by the continued recovery of live event activity and leisure travel.
- Net loss attributable to Viad for the fourth quarter improved by \$16.8 million primarily as a result of a gain on the sale of a non-core business. Full year net income attributable to Viad increased by \$115.9 million primarily due to higher revenue.
- Consolidated adjusted EBITDA* improved by \$1.8 million for the quarter and \$114.8 million for the full year, in-line with our prior guidance.

* Refer to Table Two of this press release for a discussion and reconciliation of this non-GAAP financial measure to its most directly comparable GAAP financial measure.

**Net Income (Loss) Attributable to Viad for the twelve months ended December 31, 2022 reflects the correction of an error identified during our year-end close and review procedures related to the remeasurement of a finance lease obligation as of September 30, 2022. Additional details regarding this error can be found in a Form 8-K filed by the Company on February 9, 2023.

Steve Moster, Viad's president and chief executive officer, commented, "We experienced very strong recovery across our businesses this year. Revenue more than doubled year-over-year and consolidated adjusted EBITDA reached \$116.1 million. GES significantly outperformed our expectations as live event activity returned faster than we anticipated. Pursuit posted record revenue and added two new iconic experiences to its collection."

-more-

Moster continued, "Our actions to scale Pursuit, transform GES Exhibitions' cost structure, and strengthen Spiro's capabilities are positioning us for strong future earnings potential. I am proud of our performance in 2022 and excited about the road ahead."

Pursuit Results

Total Pursuit	\$ (11.3)	\$ (9.9)	\$ (1.4)	\$ 67.9	\$ 42.7	\$ 25.3

* Refer to Table Two of this press release for a discussion and reconciliation of this non-GAAP financial measure to its most directly comparable GAAP financial measure.

**New Experiences comprises the following attractions and hotel properties that were opened or acquired after January 1, 2021: Sky Lagoon (opened May 2021), Golden Skybridge (acquired March 2021 and opened June 2021), FlyOver Las Vegas (opened September 2021), Glacier Raft Company (acquired April 2022), and Forest Park Hotel (opened August 2022).

Fourth Quarter

- Revenue increased \$10.8 million (46%) from the 2021 fourth quarter.
 - o Same-store revenue from experiences that were owned and open prior to 2021 increased \$5.9 million primarily due to stronger visitation at our year-round Canadian experiences, which were impacted in 2021 by border restrictions.
 - o Revenue from new experiences opened or acquired from 2021 forward increased \$4.8 million, reflecting the continued ramping of Sky Lagoon and FlyOver Las Vegas as well as the addition of Forest Park Alpine Hotel.
- Adjusted EBITDA decreased by \$1.4 million from the 2021 fourth quarter primarily due to higher expenses during the seasonally slow quarter, partially offset by the increase in revenue.

Regarding Pursuit's results, Moster commented, "Full year revenue increased 60 percent from 2021 and reached record levels due to our Refresh, Build, Buy growth strategy. We are making significant progress scaling Pursuit through investing in new experiences and elevating our existing collection. Pursuit posted solid year-over-year growth in 2022 driven by improved international tourism to Canada and Iceland, continued strong results from our U.S. hotels, and incremental performance from our new experiences."

Moster continued, "Our new experiences continue to build awareness and ramp with favorable contributions to both revenue and adjusted EBITDA. At FlyOver Las Vegas, our marketing and ticket distribution networking efforts are taking hold and resulted in a 21 percent sequential quarter increase in visitation. Sky Lagoon remained a strong performer and delivered a 61 percent increase in visitation from the 2021 fourth quarter. I look forward to seeing our iconic, unforgettable, and inspiring new experiences reach their full earnings potential."

Fourth Quarter

- Revenue increased \$53.7 million (34%) from the 2021 fourth quarter primarily driven by increased live event activity at both GES Exhibitions and Spiro.
- Adjusted EBITDA increased by \$3.1 million from the 2021 fourth quarter primarily due to higher revenue, offset in part by higher costs to support increased business activity.

Regarding GES' overall results, Moster commented, "GES delivered significant year-over-year growth in 2022 as live event activity improved at an accelerated pace. Same-show revenues for events produced by our U.S. exhibitions team grew from 67 percent of 2019 pre-pandemic levels in the 2021 fourth quarter to about 90 percent by the 2022 second quarter and remained at that level through the rest of the year. Spiro saw similar improvements in spending from corporate clients compared to 2019 pre-pandemic levels, and we are building our strong client roster with new business wins."

Moster continued, "I am pleased with the transformational cost structure changes we implemented at GES that enabled us to maintain strong profitability as live events returned. We ended the year at a steady cost run rate for GES Exhibitions to continue servicing a more normalized level of event activity. We remain focused on building Spiro into a world-class, integrated marketing solutions agency through investing in creative talent and expanding our capabilities beyond the tradeshow floor to fuel growth. GES is well-positioned to return to generating meaningful positive free cash flow."

Balance Sheet and Cash Flow Highlights

We ended the year with total liquidity of \$146.4 million, comprising cash and cash equivalents of \$59.7 million and \$86.7 million of capacity available on our revolving credit facility (\$100 million total facility size, less \$13.3 million in letters of credit). Our debt totaled \$481.8 million, including \$395 million outstanding on our Term Loan B, financing lease obligations of approximately \$65 million (which primarily comprises real estate leases at Pursuit), and approximately \$22 million in other debt.

Our 2022 fourth quarter cash flow from operations was an outflow of approximately \$33 million, our capital expenditures totaled approximately \$12 million, and we paid approximately \$2 million in cash dividends on our convertible preferred equity. Our net debt payments during the quarter were approximately \$4 million.

-more-

On December 15, we completed the sale of the assets of ON Services, a US-based audio-visual services business that operated as part of GES, for cash proceeds of approximately \$30 million. This transaction enhances our balance sheet and builds on the strategic transformational changes that we have implemented at GES over the past few years by further simplifying GES' operating model.

Our 2022 full year cash flow from operations was an inflow of approximately \$72 million, our capital expenditures totaled approximately \$67 million. We acquired Glacier Raft Company for approximately \$25 million and sold ON Services for approximately \$30 million. We paid approximately \$8 million in cash dividends on our convertible preferred equity and our net debt proceeds during the year were approximately \$4 million.

Moster commented, "We remain focused on disciplined capital management, driving strong free cash flow at GES and investing in high-return growth opportunities at Pursuit. I am thrilled with the progress we have made to scale Pursuit with smart investments in extraordinary experiences through our Refresh, Build, Buy growth strategy. This year, we added a high-quality attraction experience to our Glacier Park Collection, opened a remarkable new hotel in downtown Jasper, and continued to make headway with other exciting growth investments, including FlyOver Chicago and a new mountain coaster at our Golden Skybridge attraction."

2023 Outlook

Regarding Viad's outlook, Moster commented, "We expect continued growth in 2023 and are sharply focused on maximizing performance from our existing businesses. Pursuit will have meaningful tailwinds from the lifting of COVID restrictions that restrained international visitation during much of 2021 and the continued acceleration of our new experiences. GES will see some headwinds from negative show rotation in the third quarter, which we expect to mostly offset with stronger first quarter performance and new wins at Spiro."

Moster concluded, "We are experiencing strong advance bookings at Pursuit and healthy demand from GES Exhibitions and Spiro clients for 2023 with no signs of a slowdown in our industries at this point. That said, with an uncertain macro backdrop, we will make prudent decisions with respect to cost structure and capital investments to advance our strategic goals while also protecting our balance sheet."

Our guidance for Pursuit is as follows:

<i>(in millions)</i>	First Quarter	Full Year	Key Assumptions
Pursuit			
Revenue	\$28 to \$32 vs. \$23.8 in 2022	Up ~10% to 15% vs. \$299.3 in 2022	<ul style="list-style-type: none"> • Expect revenue growth in 2023 will be driven by: <ul style="list-style-type: none"> o Lifting of all COVID restrictions at the Canadian border o Acceleration of new experiences o Ongoing focus on improving the guest experience • Anticipate FY margin expansion as visitation increases, the performance of newer experiences improves, and pandemic-era cost pressures ease

We disclaim and do not undertake any obligation to update or revise any forward-looking statement in this press release except as required by applicable law or regulation.

Forward-Looking Non-GAAP Measures

The company has not quantitatively reconciled its guidance for adjusted EBITDA to its respective most comparable GAAP financial measure because certain reconciling items that impact this metric including, provision for income taxes, interest expense, restructuring or impairment charges, acquisition-related costs, and attraction start-up costs have not occurred, are out of the company's control, or cannot be reasonably predicted. Accordingly, reconciliations to the nearest GAAP financial measure are not available without unreasonable effort. Please note that the unavailable reconciling items could significantly impact the company's results as reported under GAAP.

TABLE ONE - NOTES TO QUARTERLY AND FULL YEAR RESULTS
(UNAUDITED)

- (A) Corporate Activities — The increase in corporate activities expense during 2022 relative to 2021 was primarily due to higher performance-based compensation expense.
- (B) Gain on Sale of ON Services — On December 15, 2022, we completed the sale of substantially all of the assets of GES' United States audio-visual production business, ON Services. We recognized a gain on sale of approximately \$19.6 million.
- (C) Restructuring (Charges) Recoveries — Restructuring charges during 2022 and 2021 were primarily related to facility closures and severance at GES. In response to the COVID-19 pandemic, we accelerated our transformation and streamlining efforts at GES to significantly reduce costs and create a lower and more flexible cost structure focused on servicing our more profitable market segments.
- (D) Net Interest Expense — The increase in interest expense during 2022 relative to 2021 was primarily due to higher interest rates and higher debt balances in 2022, offset in part by \$3.0 million in capitalized interest recorded during 2022. Additionally, as a result of the refinancing and the repayment of our then 2018 Credit Facility, we recorded \$2.1 million of interest expense related to the write-off of unamortized debt issuance costs during 2021.
- (E) Income Tax (Expense) Benefit — Our effective income tax rate was 29% for 2022 as compared to 2% for 2021. The effective rate for 2022 was higher than the blended statutory rate primarily as a result of the higher mix of income earned in foreign jurisdictions where we do not have a valuation allowance. The effective rate for 2021 was lower than the blended statutory rate primarily as a result of excluding the tax benefit on losses recognized in the United States, the United Kingdom, and other European countries where we have a valuation allowance.
- (F) Income (Loss) per Common Share — We apply the two-class method in calculating income (loss) per common share as preferred stock and unvested share-based payment awards that contain nonforfeitable rights to dividends are considered participating securities. Accordingly, such securities are included in the earnings allocation in calculating income per share.

Diluted income (loss) per common share is calculated using the more dilutive of the two-class method or as-converted method. The two-class method uses net income (loss) available to common stockholders and assumes conversion of all potential shares other than participating securities. The as-converted method uses net income (loss) available to common shareholders and assumes conversion of all potential shares including participating securities. Dilutive potential common shares include outstanding stock options, unvested restricted share units and convertible preferred stock.

Additionally, the adjustment to the carrying value of redeemable non-controlling interests is reflected in income (loss) per common share.

The components of basic and diluted income (loss) per share are as follows:

- (G) Convertible Series A Preferred Stock — On August 5, 2020, we entered into an Investment Agreement with funds managed by private equity firm Crestview Partners, relating to the issuance of 135,000 shares of newly issued Convertible Series A Preferred Stock, par value \$0.01 per share, for an aggregate purchase price of \$135 million or \$1,000 per share. The Convertible Series A Preferred Stock carries a 5.5% cumulative quarterly dividend, which is payable in cash or in-kind at Viad's option and is convertible into shares of our common stock at a conversion price of \$21.25 per share. A total of \$6.8 million of dividends have been paid in kind, including \$3.8 million during the first and second quarters of 2021. We began paying preferred stock dividends in cash during the 2021 third quarter and we intend to pay in cash for the foreseeable future.

TABLE TWO - NON-GAAP FINANCIAL MEASURES
(UNAUDITED)

IMPORTANT DISCLOSURES REGARDING NON-GAAP FINANCIAL MEASURES

This document includes the presentation of "Income (Loss) Before Other Items", "Adjusted EBITDA", "Segment Operating Income (Loss)", and "Adjusted Segment Operating Income (Loss)", which are supplemental to results presented under accounting principles generally accepted in the United States of America ("GAAP") and may not be comparable to similarly titled measures presented by other companies. These non-GAAP measures are utilized by management to facilitate period-to-period comparisons and analysis of Viad's operating performance and should be considered in addition to, but not as substitutes for, other similar measures reported in accordance with GAAP. The use of these non-GAAP financial measures is limited, compared to the GAAP measure of net income attributable to Viad, because they do not consider a variety of items affecting Viad's consolidated financial performance as reconciled below. Because these non-GAAP measures do not consider all items affecting Viad's consolidated financial performance, a user of Viad's financial information should consider net income attributable to Viad as an important measure of financial performance because it provides a more complete measure of the Company's performance.

Income (Loss) Before Other Items, Segment Operating Income (Loss), and Adjusted Segment Operating Income (Loss) are considered useful operating metrics, in addition to net income attributable to Viad, as potential variations arising from non-operational expenses/income are eliminated, thus resulting in additional measures considered to be indicative of Viad's performance. Management believes that the presentation of Adjusted EBITDA provides useful information to investors regarding Viad's results of operations for trending, analyzing and benchmarking the performance and value of Viad's business. Management also believes that the presentation of Adjusted EBITDA for acquisitions and other major capital projects enables investors to assess how effectively management is investing capital into major corporate development projects, both from a valuation and return perspective.

⁴ Includes non-capitalizable fees and expenses related to Viad's credit facility refinancing efforts.

(B) Remeasurement of finance lease obligation attributable to Viad represents the non-cash foreign exchange loss/(gain) included within Cost of Services related to the periodic remeasurement of the Sky Lagoon finance lease obligation that is attributed to Viad's 51% interest in Sky Lagoon.

(C) We exclude the adjustment to the redemption value of redeemable noncontrolling interest from the calculation of income before other items per share as it is a non-cash adjustment that does not affect net income or loss attributable to Viad.

(D) Preferred stock and unvested share-based payment awards that contain nonforfeitable rights to dividends are considered participating securities. Accordingly, such securities are included in the earnings allocation in calculating income (loss) before other items per common share unless the effect of such inclusion is anti-dilutive. FORWARD-LOOKING STATEMENTS

This presentation contains a number of forward-looking statements. Words, and variations of words, such as "will," "may," "expect," "would," "could," "might," "intend," "plan," "believe," "estimate," "anticipate," "deliver," "seek," "aim," "potential," "target," "outlook," and similar expressions are intended to identify our forward-looking statements. Similarly, statements that describe our business strategy, outlook, objectives, plans, initiatives, intentions or goals also are forward looking statements. These forward-looking statements are not historical facts and are subject to a host of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from those in the forward-looking statements.

Important factors that could cause actual results to differ materially from those described in our forward-looking statements include, but are not limited to, the following:

- general economic uncertainty in key global markets and a worsening of global economic conditions;
- travel industry disruptions;
- seasonality of our businesses;
- the impact of the COVID-19 pandemic on our financial condition, liquidity, and cash flow;
- our ability to anticipate and adjust for the impact of the COVID-19 pandemic on our businesses;
- unanticipated delays and cost overruns of our capital projects, and our ability to achieve established financial and strategic goals for such projects;
- our exposure to labor shortages, turnover, and labor cost increases;
- the importance of key members of our account teams to our business relationships;
- our ability to manage our business and continue our growth if we lose any of our key personnel;
- the competitive nature of the industries in which we operate;
- our dependence on large exhibition event clients;
- adverse effects of show rotation on our periodic results and operating margins;
- transportation disruptions and increases in transportation costs;
- natural disasters, weather conditions, accidents, and other catastrophic events;
- our exposure to labor cost increases and work stoppages related to unionized employees;
- our multi-employer pension plan funding obligations;
- our ability to successfully integrate and achieve established financial and strategic goals from acquisitions;
- our exposure to cybersecurity attacks and threats;
- our exposure to currency exchange rate fluctuations;
- liabilities relating to prior and discontinued operations; and
- compliance with laws governing the storage, collection, handling, and transfer of personal data and our exposure to legal claims and fines for data breaches or improper handling of such data.

For a more complete discussion of the risks and uncertainties that may affect our business or financial results, please see Item 1A, "Risk Factors," of our most recent annual report on Form 10-K filed with the SEC. We disclaim and do not undertake any obligation to update or revise any forward-looking statement in this presentation except as required by applicable law or regulation.

NON-GAAP FINANCIAL MEASURES

This document includes the presentation of “**Adjusted EBITDA**” and “**Income (Loss) Before Other Items**”, which are supplemental to results presented under accounting principles generally accepted in the United States of America (“GAAP”) and may not be comparable to similarly titled measures presented by other companies. These non-GAAP measures should be considered in addition to, but not as a substitute for, other similar measures reported in accordance with GAAP.

The use of these non-GAAP financial measures is limited, compared to the GAAP measure of net income attributable to Viad, because it does not consider a variety of items affecting Viad’s consolidated financial performance as explained below. Because these non-GAAP measures do not consider all items affecting Viad’s consolidated financial performance, a user of Viad’s financial information should consider net income attributable to Viad as an important measure of financial performance because it provides a more complete measure of the Company’s performance.

Forward-Looking Non-GAAP Measures

The company has not quantitatively reconciled its guidance for adjusted EBITDA to its respective most comparable GAAP measure because certain reconciling items that impact this metric including, provision for income taxes, interest expense, restructuring or impairment charges, acquisition-related costs, and attraction start-up costs have not occurred, are out of the company’s control, or cannot be reasonably predicted. Accordingly, reconciliations to the nearest GAAP financial measure are not available without unreasonable effort. Please note that the unavailable reconciling items could significantly impact the company’s results as reported under GAAP.

Adjusted EBITDA is defined by management as net income attributable to Viad before income (loss) from discontinued operations, interest expense and interest income, income taxes, depreciation and amortization, acquisition-related costs, attraction start-up costs, restructuring charges, impairment charges, and the reduction/increase for income/loss attributable to non-redeemable and redeemable non-controlling interests.

Adjusted EBITDA is considered a useful operating metric, in addition to net income attributable to Viad, as potential variations arising from non-recurring integration costs, non-cash amortization and depreciation, and non-operational expenses/income are eliminated, thus resulting in an additional measure considered to be indicative of Viad’s consolidated and segment performance. Management believes that the presentation of Adjusted EBITDA provides useful information to investors regarding Viad’s results of operations for trending, analyzing and benchmarking the performance and value of Viad’s business.

Income (Loss) Before Other Items is defined by management as net income attributable to Viad before income (loss) from discontinued operations, acquisition-related costs, attraction start-up costs, restructuring charges, impairment charges, other non-recurring expenses, and tax matters.

Income (Loss) Before Other Items is considered a useful operating metric, in addition to net income attributable to Viad, as potential variations arising from non-operational expenses/income are eliminated, thus resulting in an additional measure considered to be indicative of Viad’s performance.

Q4'22 HIGHLIGHTS

1

Pursuit delivered record revenue and GES outperformed expectations in 2022

2

Delivered strong 2022 results through strategic focus on scaling Pursuit and improving profitability at GES

3

Expect growth to continue in 2023 with fewer COVID restrictions on international travel and acceleration of new Pursuit experiences

* Refer to Appendix for a discussion and reconciliation of this non-GAAP financial measure to its most directly comparable GAAP financial measure.

- **Revenue grew 35.1%** or \$64.5 million driven by 46% growth at Pursuit and 34% growth at GES
- **Net loss attributable to Viad improved by \$16.8 million** primarily as a result of a gain on the sale of a non-core business within GES and higher Adjusted EBITDA
- **Consolidated Adjusted EBITDA improved by \$1.8 million** primarily due to stronger revenue at GES
 - GES Adjusted EBITDA was above the high-end of guidance range on continued strengthening of live event activity and great execution
 - Pursuit Adjusted EBITDA was below the low-end of guidance range primarily due to higher than anticipated expenses in this seasonally slow quarter

GES REVENUE REFLECTS CONTINUED RECOVERY AND FAVORABLE SHOW ROTATION

GES Revenue

(in millions)

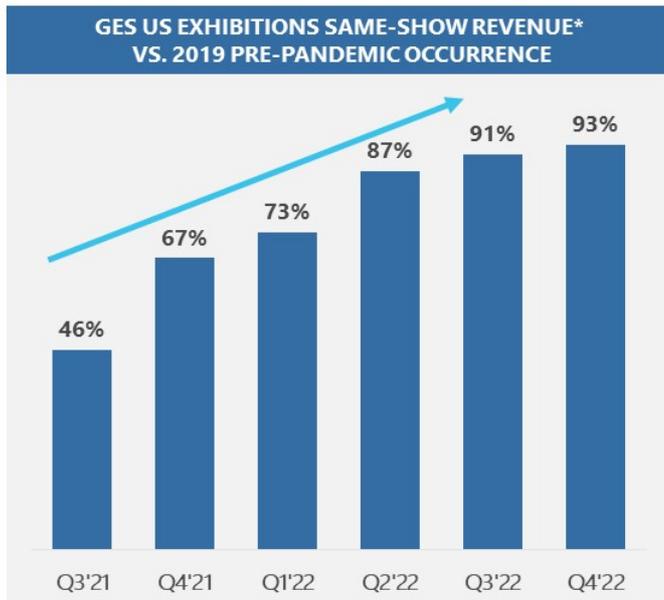

Note: Total GES revenue is net of inter-segment eliminations

➤ FY'22 revenue of \$828 million increased \$508 million year-over-year

- Same-show revenue improved significantly from 2021 but remained below 2019
- Positive show rotation revenue of ~\$26 million vs. FY'21 and ~\$32 million vs. FY'19

Note: Show rotation refers to GES' major non-annual shows.

SHOW SIZES REMAIN STRONG

- GES continues to perform better than expected with strong customer demand
- In Q4, GES Exhibitions' same show revenue was over 90% of 2019 levels
- Additionally, Spiro continues to outperform our expectations with clients' marketing spending closely approaching 2019 levels and the addition of new clients

* The US same show metric compares tradeshow that occurred in the same city for both occurrences and represented between 30% and 50% of the total exhibition revenue during each of the last five quarters

Adjusted EBITDA	34.3	(26.1)	20% Flow-Through
Less Facility Gain	-	(9.1)	
Adjusted EBITDA without Gain	\$ 34.3	\$ (35.2)	\$ 69.5

- Transformation of GES' cost structure during pandemic enabled strong profitability as business activity accelerated in 2022
- GES Exhibitions delivered 20% flow through of incremental revenue to Adjusted EBITDA during 2022
 - Cost structure achieved steady state run rate in 2H'22

FINANCIAL OUTLOOK

FINANCIAL OUTLOOK - PURSUIT

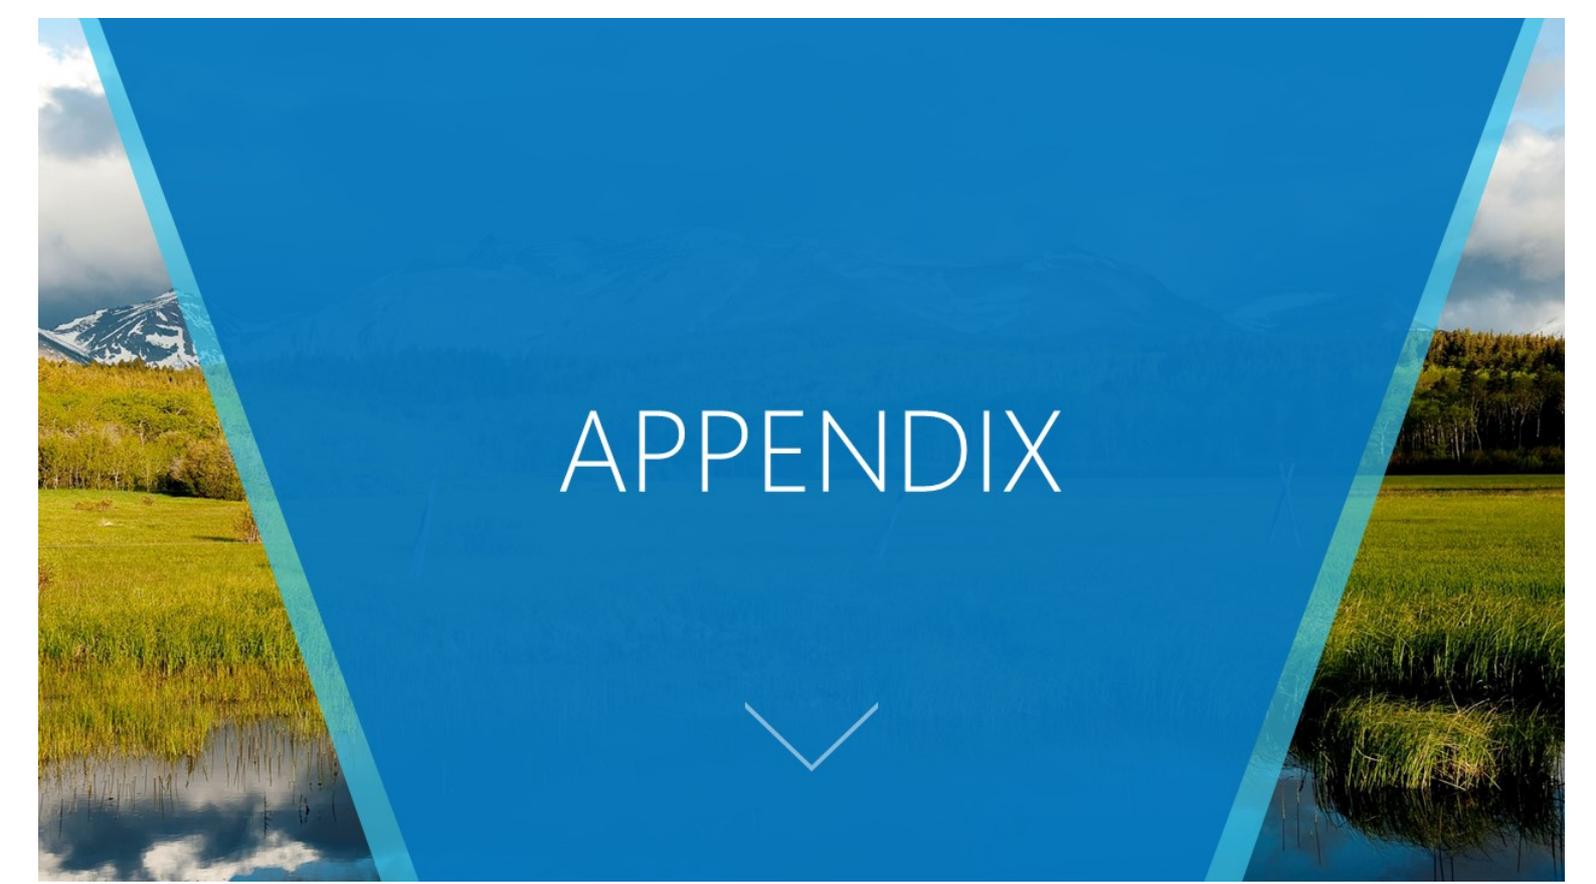

Pursuit Guidance (\$millions)		
	Q1'23	FY'23
Adjusted EBITDA	(\$14) to (\$11) <i>vs. (\$11.5) in Q1'22</i>	\$85 to \$95 <i>vs. \$67.9 in FY22</i>
Revenue	\$28 to \$32 <i>vs. \$23.8 in Q1'22</i>	+10% to 15% <i>vs. \$299.3 in FY'22</i>

- Expect revenue growth in 2023 will be driven by:
 - Lifting of all COVID restrictions at the Canadian border
 - Acceleration of new experiences
 - Ongoing focus on improving the guest experience
- Anticipate FY margin expansion as visitation increases, the performance of newer experiences improves, and pandemic-era cost pressures ease

FINANCIAL OUTLOOK - GES

GES Guidance (\$millions)		
	Q1'23	FY'23
Adjusted EBITDA	\$8 to \$11 <i>vs. \$2.7 in Q1'22</i>	\$48 to \$58 <i>vs. \$61.3 in FY'22</i>
Revenue	\$195 to \$215 <i>vs. \$153.6 in Q1'22</i>	down ~5% <i>vs. \$828 in FY'22</i>

- Expect GES will mostly offset the headwinds of negative show rotation revenue (\$30M) and the sale of ON Services (\$50M) in 2023
 - Exhibitions same show revenue expected to remain at ~90% of 2019 levels
 - Spiro clients' marketing spend expected to be similar to 2022, plus new client wins
- We intend to continue investing in Spiro to fuel growth in 2023 and beyond by expanding capabilities and adding new services

(1) Revenue has been adjusted in 2019 for immaterial errors related to the revenue recognition of GES' Corporate Accounts' third-party services, which are now reported on a net basis to reflect only the fees received for arranging these services.

(A) Includes costs related to the development of Pursuit's new FlyOver attractions in Las Vegas, Chicago, and Toronto, the Sky Lagoon in Iceland, and the Golden Skybridge and Forest Park Hotel in Canada.

(B) Includes inventory write-offs at GES in connection with transitioning to an outsourced model for trade show aisle carpet.

(C) Includes non-capitalizable fees and expenses related to Viad's credit facility refinancing efforts.

(D) Remeasurement of finance lease obligation represents the non-cash foreign exchange loss/gain included within Cost of Services related to the periodic remeasurement of the Sky Lagoon finance lease obligation.

(E) Corporate Adjusted EBITDA is calculated as Corporate activities expense before depreciation, acquisition-transaction-related costs and other non-recurring costs included within Corporate activities expense.

FORWARD-LOOKING NON-GAAP FINANCIAL MEASURES

We have also provided forward-looking guidance for Adjusted EBITDA, a non-GAAP financial measure. We do not provide a reconciliation of the forward-looking guidance of Adjusted EBITDA, a non-GAAP financial measure, to the most directly comparable GAAP financial measure because, due to variability and difficulty in making accurate forecasts and projections and/or certain information not being ascertainable or accessible, not all of the information necessary for quantitative reconciliations is available to us without unreasonable efforts. Consequently, any attempt to disclose such reconciliations would imply a degree of precision that could be confusing or misleading to investors. It is possible that the forward-looking non-GAAP financial measure may be materially different from the corresponding forward-looking GAAP financial measure.
