Item 2.02 Results of Operations and Financial Condition.

On May 8, 2014, Nelnet, Inc. (the “Company”) issued a press release with respect to its financial results for the quarter ended March 31, 2014. A copy of the press release is furnished as Exhibit 99.1 to this report. In addition, a copy of the supplemental financial information for the quarter ended March 31, 2014, which was made available on the Company's website at www.nelnetinvestors.com on May 8, 2014 in connection with the press release, is furnished as Exhibit 99.2 to this report.

The above information and Exhibits 99.1 and 99.2 shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the “Exchange Act”), nor shall such information and Exhibits be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing. In addition, information on the Company's website is not incorporated by reference into this report and should not be considered part of this report.

Certain statements contained in the exhibits furnished with this report may be considered forward looking in nature and are subject to various risks, uncertainties, and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, the Company's actual results may vary materially from those anticipated, estimated, or expected. Among the key risks and uncertainties that may have a direct bearing on the Company's future operating results, performance, or financial condition expressed or implied by the forward-looking statements are the matters discussed in the Risk Factors section of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 filed with the SEC on February 27, 2014. Although the Company may from time to time voluntarily update its prior forward-looking statements, it disclaims any commitment to do so except as required by securities laws.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits. The following exhibits are furnished as part of this report:

<u>Exhibit No.</u>	<u>Description</u>
99.1	Press Release dated May 8, 2014 - “Nelnet Reports First Quarter 2014 Results”
99.2	Supplemental Financial Information for the Quarter Ended March 31, 2014

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Dated: May 8, 2014

Title: Chief Financial Officer

Nelnet Reports First Quarter 2014 Results

- **GAAP net income \$1.59 per share, \$1.56 per share excluding adjustments**
- **16 percent increase in revenue from Student Loan and Guaranty Servicing segment**
- **Net student loan assets exceed \$29 billion after April 2014 acquisition**

LINCOLN, Neb., May 8, 2014-Nelnet (NYSE: NNI) today reported GAAP net income of \$73.8 million, or \$1.59 per share, for the first quarter of 2014, compared with GAAP net income of \$68.1 million, or \$1.46 per share, for the same period a year ago.

Excluding derivative market value and foreign currency adjustments, net income was \$72.6 million, or \$1.56 per share, for the first quarter of 2014, compared with \$62.4 million, or \$1.34 per share, for the same period in 2013. The company reported income from derivative market value and foreign currency adjustments of \$1.2 million after tax, or \$0.03 per share, for the first quarter of 2014, compared with income of \$5.7 million after tax, or \$0.12 per share, for the first quarter of 2013.

The increase in net income in 2014 compared with 2013 was primarily due to an increase in net income from the company's Student Loan and Guaranty Servicing segment, an increase in income from providing investment advisory services, and an increase in gains from investment activities.

"We are excited to report strong first-quarter earnings and to be acquiring student loan portfolios," said Jeff Noordhoek, Nelnet chief executive officer. "Our strategy in 2014 is to continue to provide a great customer experience and to effectively deploy capital in existing and new businesses. We've significantly added to our student loan portfolio this year and see ongoing market opportunities to purchase legacy student loans."

Nelnet operates four primary business segments, earning interest income on student loans in its Asset Generation and Management operating segment, and fee-based revenue in its Student Loan and Guaranty Servicing, Tuition Payment Processing and Campus Commerce, and Enrollment Services operating segments.

Asset Generation and Management

For the first quarter of 2014, Nelnet reported net interest income of \$98.9 million, compared with \$98.8 million for the same period a year ago. Core student loan spread decreased to 1.44 percent for the first quarter of 2014, compared with 1.50 percent for the same period in 2013. Student loan spread tightened as a result of recent consolidation loan acquisitions, which have lower margins but longer terms.

As of March 31, 2014, net student loan assets were \$25.6 billion. As previously announced, the company completed the purchase of \$3.6 billion of legacy FFELP student loans and related assets in April 2014. After the acquisition, net student loan assets exceed \$29 billion.

Fee-Based Operating Segments

The company reported total revenue from its fee-based operating segments in the first quarters of 2014 and 2013 of \$112.0 million and \$108.0 million, respectively. Net income from fee-based operating segments was \$19.6 million for the first quarter of 2014, up from \$17.5 million for the same period in 2013.

Revenue from the company's Student Loan and Guaranty Servicing segment increased 16 percent, or \$9.2 million, to \$64.8 million for the first quarter of 2014, up from \$55.6 million for the first quarter of 2013. The increase in revenue was the result of growth in servicing volume under the company's contract with the U.S. Department of Education (Department).

As of March 31, 2014, the company was servicing \$120.6 billion of loans for 5.4 million borrowers on behalf of the Department, compared with \$84.6 billion of loans for 4.3 million borrowers as of March 31, 2013. Revenue from this contract increased to \$29.9 million for the first quarter of 2014, up from \$20.3 million for the same period a year ago.

For the first quarter of 2014, revenue from the company's Tuition Payment Processing and Campus Commerce segment was \$25.2 million, an increase of \$1.8 million, or 8 percent, from the same period in 2013. The company reported first quarter of 2014 revenue from its Enrollment Services segment of \$22.0 million, compared with \$29.0 million for the same period in 2013.

Other Income

Other income increased \$8.7 million to \$18.1 million for the first quarter of 2014, compared with \$9.4 million for the same period in 2013. The increase was due to gains on investments, which totaled \$7.2 million for the first quarter of 2014, compared with \$1.2 million for the same period in 2013, and increased investment advisory fee revenue, which totaled \$5.2 million for the first quarter of 2014, compared with \$2.8 million for the same period in 2013.

Operating Expenses

The company reported consolidated operating expenses of \$107.4 million for the first quarter of 2014, compared with \$106.9 million for the same period in 2013.

Board of Directors Approves Dividend

The Nelnet Board of Directors declared a second quarter cash dividend on the company's outstanding shares of Class A common stock and Class B common stock of \$0.10 per share. The dividend will be paid on Friday, June 13, 2014, to shareholders of record at the close of business on Friday, May 30, 2014.

Non-GAAP Performance Measures

The company provides additional non-GAAP financial information related to specific items management believes to be important in the evaluation of its operating results, including specifically, the impact of unrealized gains and losses resulting from changes in fair values of derivative instruments which do not qualify for "hedge treatment" under GAAP and foreign currency transaction gains or losses resulting from the re-measurement of the company's Euro-denominated bonds to U.S. dollars. The company believes these point in time estimates of asset and liability values related to financial instruments that are subject to interest and currency rate fluctuations, and items whose timing and/or amount cannot be reasonably estimated in advance, affect the period to period comparability of the results of the company's fundamental business operations on a recurring basis. Accordingly, the company provides operating results excluding these items for comparability purposes.

Forward-looking and Cautionary Statements

This press release contains forward-looking statements within the meaning of federal securities laws. These statements are based on management's current expectations as of the date of this release and are subject to known and unknown risks and uncertainties that may cause actual results or performance to differ materially from those expressed or implied by the forward-looking statements. Such risks include, among others, risks related to the company's student loan portfolio such as interest rate basis and repricing risk, the use of derivatives to manage exposure to interest rate fluctuations, and the uncertain nature of expected benefits from recent FFELP loan purchases; the company's funding requirements to satisfy asset financing needs; risks related to the availability of government funds and actual extension of the company's loan servicing contract with the Department for an additional five years and the company's ability to maintain and increase volumes under that contract to service federally owned student loans; changes in the educational credit and services marketplace resulting from changes in applicable laws, regulations, and government programs and budgets; risks related to the expected reduction in government payments to guaranty agencies to rehabilitate defaulted FFELP loans and services in support of those activities; uncertainties inherent in forecasting future cash flows from student loan assets and related asset-backed securitizations; and changes in general economic and credit market conditions. For more information, see the "Risk Factors" sections and other cautionary discussions of risks and uncertainties included in documents filed or furnished by the company with the Securities and Exchange Commission, including the cautionary information about forward-looking statements contained in the company's supplemental financial information for the first quarter ended March 31, 2014. All information in this release is as of the date of this release. Although the company may from time to time voluntarily update or revise its forward-looking statements to reflect actual results or changes in the company's expectations, the company disclaims any commitment to do so except as required by securities laws.

Nelnet, Inc. supplemental financial information for the first quarter 2014
(All dollars are in thousands, except per share amounts, unless otherwise noted)

The following information should be read in connection with Nelnet, Inc.'s (the "Company's") press release for first quarter 2014 earnings, dated May 8, 2014, and the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2014.

This report contains forward-looking statements and information that are based on management's current expectations as of the date of this document. Statements that are not historical facts, including statements about the Company's plans and expectations for future financial condition, results of operations or economic performance, or that address management's plans and objectives for future operations, and statements that assume or are dependent upon future events, are forward-looking statements. The words "may," "should," "could," "would," "predict," "potential," "continue," "expect," "anticipate," "future," "intend," "plan," "believe," "estimate," "assume," "forecast," "will," and similar expressions, as well as statements in future tense, are intended to identify forward-looking statements.

The forward-looking statements are based on assumptions and analyses made by management in light of management's experience and its perception of historical trends, current conditions, expected future developments, and other factors that management believes are appropriate under the circumstances. These statements are subject to known and unknown risks, uncertainties, assumptions, and other factors that may cause the actual results and performance to be materially different from any future results or performance expressed or implied by such forward-looking statements. These factors include, among others, the risks and uncertainties set forth in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 (the "2013 Annual Report"), in particular such risks and uncertainties as:

- student loan portfolio risks such as interest rate basis and repricing risk resulting from the fact that the interest rate characteristics of the student loan assets do not match the interest rate characteristics of the funding for those assets, the risk of loss of floor income on certain student loans originated under the Federal Family Education Loan Program (the "FFEL Program" or "FFELP"), risks related to the use of derivatives to manage exposure to interest rate fluctuations, uncertainties regarding the expected benefits from recently purchased securitized and unsecuritized FFELP student loans, and risks from changes in levels of student loan prepayment or default rates;
- financing and liquidity risks, including risks of changes in the general interest rate environment and in the securitization and other financing markets for student loans, which may increase the costs or limit the availability of financings necessary to purchase, refinance, or continue to hold student loans;
- risks from changes in the educational credit and services markets resulting from changes in applicable laws, regulations, and government programs and budgets, such as the expected decline over time in FFELP loan interest income and fee-based revenues due to the discontinuation of new FFELP loan originations in 2010 and potential government initiatives to consolidate existing FFELP loans to the Federal Direct Loan Program, risks related to the expected reduction in government payments to guaranty agencies to rehabilitate defaulted FFELP loans and services in support of those activities, risks related to the availability of government funds and actual extension of the Company's loan servicing contract with the Department, which accounted for 23 percent of the Company's fee-based revenue in 2013, for an additional five years, and the Company's ability to maintain or increase volumes under that contract, and the Company's ability to comply with agreements with third-party customers for the servicing of FFELP and Federal Direct Loan Program loans;
- risks related to a breach of or failure in the Company's operational or information systems or infrastructure, or those of third-party vendors;
- uncertainties inherent in forecasting future cash flows from student loan assets and related asset-backed securitizations; and
- risks and uncertainties associated with litigation matters and with maintaining compliance with the extensive regulatory requirements applicable to the Company's businesses, and uncertainties inherent in the estimates and assumptions about future events that management is required to make in the preparation of the Company's consolidated financial statements.

All forward-looking statements contained in this report are qualified by these cautionary statements and are made only as of the date of this document. Although the Company may from time to time voluntarily update or revise its prior forward-looking statements to reflect actual results or changes in the Company's expectations, the Company disclaims any commitment to do so except as required by securities laws.

Overview

The Company is an education services company focused primarily on providing fee-based processing services and quality education-related products and services in four core areas: asset management and finance, loan servicing, payment processing, and enrollment services (education planning). These products and services help students and families plan, prepare, and pay for their education and make the administrative and financial processes more efficient for schools and financial organizations. In addition, the Company earns interest income on a portfolio of federally insured student loans.

A reconciliation of the Company's GAAP net income to net income, excluding derivative market value and foreign currency adjustments, is provided below.

	Three months ended		
	March 31, 2014	December 31, 2013	March 31, 2013
GAAP net income attributable to Nelnet, Inc.	\$ 73,786	70,520	68,079
Derivative market value and foreign currency adjustments, net of tax	(1,218)	(466)	(5,738)
Net income, excluding derivative market value and foreign currency adjustments (a)	\$ 72,568	70,054	62,341
Earnings per share:			
GAAP net income attributable to Nelnet, Inc.	\$ 1.59	1.52	1.46
Derivative market value and foreign currency adjustments, net of tax	(0.03)	(0.01)	(0.12)
Net income, excluding derivative market value and foreign currency adjustments (a)	\$ 1.56	1.51	1.34

- (a) The Company provides non-GAAP information that reflects specific items management believes to be important in the evaluation of its financial position and performance. "Derivative market value and foreign currency adjustments" include (i) the unrealized gains and losses that are caused by changes in fair values of derivatives which do not qualify for "hedge treatment" under GAAP; and (ii) the foreign currency transaction gains or losses caused by the re-measurement of the Company's Euro-denominated bonds to U.S. dollars. The Company believes these point-in-time estimates of asset and liability values related to these financial instruments that are subject to interest and currency rate fluctuations affect the period-to-period comparability of the results of operations. Accordingly, the Company provides operating results excluding these items for comparability purposes.

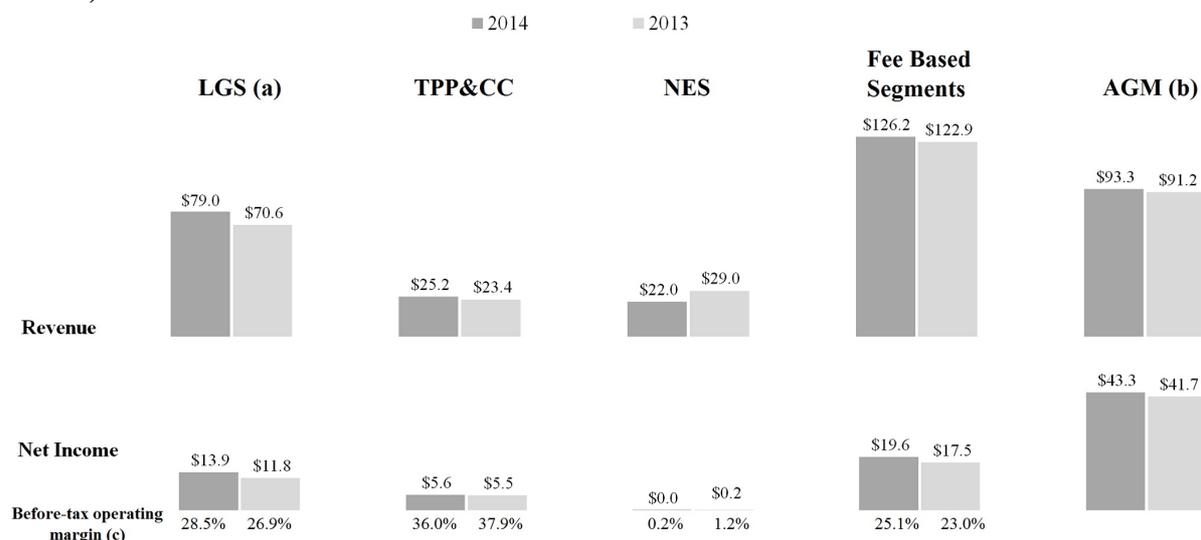

The increase in earnings in the three months ended March 31, 2014 period compared to the same period in 2013 was due to an increase in net income from the Company's Student Loan and Guaranty Servicing operating segment, an increase in income from providing investment advisory services, and an increase in gains from investment activities.

The Company earns net interest income on its FFELP student loan portfolio in its Asset Generation and Management ("AGM") operating segment. This segment is expected to generate a stable net interest margin and significant amounts of cash as the FFELP portfolio amortizes. As of March 31, 2014, the Company had a \$25.6 billion student loan portfolio that will amortize over the next approximately 20 years. The Company actively seeks to acquire additional FFELP loan portfolios to leverage its servicing scale and expertise to generate incremental earnings and cash flow. In April 2014, the Company purchased \$3.6 billion of FFELP student loans and related assets. As of April 30, 2014, subsequent to the closing of this transaction, the Company's student loan portfolio was over \$29 billion.

In addition, the Company earns fee-based revenue through the following reportable operating segments:

- Student Loan and Guaranty Servicing ("LGS") - referred to as Nelnet Diversified Solutions ("NDS")
- Tuition Payment Processing and Campus Commerce ("TPP&CC") - referred to as Nelnet Business Solutions ("NBS")
- Enrollment Services - commonly called Nelnet Enrollment Solutions ("NES")

The information below provides the operating results for each reportable operating segment for the three months ended March 31, 2014 and 2013 (dollars in millions).

- (a) Revenue includes intersegment revenue of \$14.2 million and \$15.0 million for the three months ended March 31, 2014 and 2013, respectively, earned by LGS as a result of servicing loans for AGM.
- (b) Total revenue includes "net interest income after provision for loan losses" and "total other income" from the Company's segment statements of income, excluding the impact from changes in fair values of derivatives and foreign currency transaction adjustments, which was income of \$3.5 million and \$5.3 million for the three months ended March 31, 2014 and 2013, respectively. Net income excludes changes in fair values of derivatives and foreign currency transaction adjustments, net of tax, which was income of \$2.2 million and \$3.3 million for the three months ended March 31, 2014 and 2013, respectively.
- (c) Computed as income before income taxes divided by total revenue.

Student Loan and Guaranty Servicing

- As of March 31, 2014, the Company was servicing \$147.9 billion in FFELP, private, and government owned student loans, as compared with \$112.8 billion of loans as of March 31, 2013.
- Revenue increased in the three months ended March 31, 2014 compared to the same period in 2013 due to growth in servicing volume under the Company's contract with the Department, offset partially by a decrease in traditional FFELP servicing revenue. Revenue from the Department servicing contract increased to \$29.9 million for the three months ended March 31, 2014, compared to \$20.3 million for the same period in 2013. As of March 31, 2014, the Company was servicing \$120.6 billion of loans for 5.4 million borrowers under this contract.
- Before tax operating margin was 28.5% in the three months ended March 31, 2014. Excluding the settlement of a billing dispute related to a prior period which increased revenue by \$2.2 million, the before tax operating margin in this segment was 25.7% during the first quarter of 2014, as compared to 26.9% in the same period of 2013. Operating margin in this segment will continue to decrease as loans serviced under the Department servicing contract increases as a percentage of overall volume serviced.
- Recent federal budget provisions to become effective July 1, 2014 will reduce payments by the Department to guaranty agencies for assisting student loan borrowers with the rehabilitation of defaulted loans under FFELP. Rehabilitation collection revenue recognized by the Company for the three months ended March 31, 2014 and 2013 was \$13.4 million and \$12.1 million, respectively. The Company anticipates this revenue will be negatively impacted as a result of these federal budget provisions.

Tuition Payment Processing and Campus Commerce

- Revenue increased in the three months ended March 31, 2014 compared to the same period in 2013 due to increases in the number of managed tuition payment plans, campus commerce customer transaction volume, and new school customers.

- Before tax operating margin decreased in the three months ended March 31, 2014 compared to the same period in 2013, due to an increase in expenses associated with continued system maintenance and enhancements.
- This segment is subject to seasonal fluctuations. Based on the timing of when revenue is recognized and when expenses are incurred, revenue and operating margin are higher in the first quarter as compared to the remainder of the year.

Enrollment Services

- Revenue decreased in the three months ended March 31, 2014 compared to the same period in 2013 due to a decrease in inquiry management and generation revenue as a result of the regulatory uncertainty regarding recruiting and marketing to potential students in the for-profit college industry, which has caused schools to decrease spending on marketing efforts.
- The Company continues to focus on improving the profitability of this segment by reducing operating expenses in reaction to the ongoing decline in revenue and gross margin.

Asset Generation and Management

- The Company acquired \$387.3 million of student loans during the first three months of 2014. The average loan portfolio balance for the three months ended March 31, 2014 and 2013 was \$25.9 billion and \$24.8 billion, respectively.
- Forecasted future cash flows from the Company's FFELP student loan portfolio financed in asset-backed securitization transactions are estimated to be approximately \$2.17 billion as of March 31, 2014.
- Core student loan spread decreased to 1.44% for the three months ended March 31, 2014, compared to 1.56% and 1.50% for the three months ended December 31, 2013 and March 31, 2013, respectively. This decrease was the result of recent consolidation loan acquisitions, which have lower margins but longer terms.
- Due to historically low interest rates, the Company continues to earn significant fixed rate floor income. During the three months ended March 31, 2014 and 2013, the Company earned \$37.8 million and \$35.7 million, respectively, of fixed rate floor income (net of \$7.0 million and \$8.3 million of derivative settlements, respectively, used to hedge such loans).

Corporate Activities

- Whitetail Rock Capital Management, LLC ("WRCM"), the Company's SEC-registered investment advisory subsidiary, recognized investment advisory revenue of \$5.2 million and \$2.8 million for the three months ended March 31, 2014 and 2013, respectively. These amounts include performance fees earned from the sale of managed securities. As of March 31, 2014, WRCM was managing an investment portfolio of \$752.5 million for third-party entities.
- The Company had \$7.2 million in gains on investments during the three months ended March 31, 2014, compared to \$1.2 million for the same period in 2013.

Subsequent Event

- In April 2014, the Company purchased a total of \$3.6 billion of FFELP student loans and related assets. The transaction included the purchase of residual interests in a total of \$2.6 billion of securitized student loans and related assets under a stock purchase agreement, and the purchase of a total of approximately \$950 million of unsecuritized student loans under three separate loan sale agreements. The aggregate cash purchase price for the assets acquired under the stock purchase agreement and the cash amount paid over the par value of the student loan portfolio and related accrued interest under the loan sale agreements was \$139 million, and was funded from the Company's operating cash and unsecured line of credit. All acquired student loan assets and related debt will be included in the Company's consolidated financial statements.

Operating Segments

The Company earns fee-based revenue through its Student Loan and Guaranty Servicing, Tuition Payment Processing and Campus Commerce, and Enrollment Services operating segments. In addition, the Company earns interest income on its student loan portfolio in its Asset Generation and Management operating segment. The Company's operating segments are defined by the products and services they offer and the types of customers they serve, and they reflect the manner in which financial information is currently evaluated by management. See note 1 of the notes to consolidated financial statements included in the 2013 Annual Report for a description of each operating segment, including the primary products and services offered.

The management reporting process measures the performance of the Company's operating segments based on the management structure of the Company, as well as the methodology used by management to evaluate performance and allocate resources. Executive management (the "chief operating decision maker") evaluates the performance of the Company's operating segments based on their financial results prepared in conformity with U.S. generally accepted accounting principles.

Intersegment revenues are charged by a segment that provides a product or service to another segment. Intersegment revenues and expenses are included within each segment consistent with the income statement presentation provided to management. Income taxes are allocated based on 38% of income (loss) before taxes for each individual operating segment. The difference between the consolidated income tax expense and the sum of taxes calculated for each operating segment is included in income taxes in Corporate Activity and Overhead.

Corporate Activity and Overhead

Corporate Activity and Overhead includes the following items:

- The operating results of WRCM, the Company's SEC-registered investment advisory subsidiary
- Income earned on certain investment activities
- Interest expense incurred on unsecured debt transactions
- Other product and service offerings that are not considered operating segments

Corporate Activities and Overhead also includes certain corporate activities and overhead functions related to executive management, human resources, accounting, legal, occupancy, and marketing. These costs are allocated to each operating segment based on estimated use of such activities and services.

Segment Results of Operations

The following tables include the results of each of the Company's operating segments reconciled to the consolidated financial statements.

	Three months ended March 31, 2014

Net Interest Income, Net of Settlements on Derivatives

The Company maintains an overall risk management strategy that incorporates the use of derivative instruments to reduce the economic effect of interest rate volatility. Derivative settlements for each applicable period should be evaluated with the Company's net interest income.

The following table summarizes the components of "net interest income" and "derivative settlements, net" included in the attached consolidated statements of income.

	Three months ended		
	March 31, 2014	December 31, 2013	March 31, 2013
Variable student loan interest margin, net of settlements on derivatives	\$ 54,396	62,683	55,621
Fixed rate floor income, net of settlements on derivatives	37,844	38,849	35,716
Investment interest	1,979	2,006	1,617
Non-portfolio related derivative settlements	(252)	(258)	(645)
Corporate debt interest expense	(1,325)	(951)	(1,695)
Net interest income (net of settlements on derivatives)	<u>\$ 92,642</u>	<u>102,329</u>	<u>90,614</u>

Consolidation loans lost to external parties	(145,664)	(143,151)
Loans sold	—	(11,648)
Ending balance	\$ 25,814,195	25,030,597

Student Loan Spread

The following table analyzes the student loan spread on the Company's portfolio of student loans, which represents the spread between the yield earned on student loan assets and the costs of the liabilities and derivative instruments used to fund those assets.

	Three months ended		
	March 31, 2014	December 31, 2013	March 31, 2013
Variable student loan yield, gross	2.50 %	2.58 %	2.57 %
Consolidation rebate fees	(0.80)	(0.78)	(0.77)
Discount accretion, net of premium and deferred origination costs amortization	0.05	0.05	0.03
Variable student loan yield, net	1.75	1.85	1.83
Student loan cost of funds - interest expense	(0.92)	(0.90)	(0.93)
Student loan cost of funds - derivative settlements	0.02	0.01	0.01
Variable student loan spread	0.85	0.96	0.91
Fixed rate floor income, net of settlements on derivatives	0.59	0.60	0.59
Core student loan spread	1.44 %	1.56 %	1.50 %
Average balance of student loans	\$ 25,915,053	25,770,607	24,781,426
Average balance of debt outstanding	25,826,656	25,687,958	24,823,397

A trend analysis of the Company's core and variable student loan spreads is summarized below.

- (a) The interest earned on a large portion of the Company's FFELP student loan assets is indexed to the one-month LIBOR rate. The Company funds the majority of its assets with three-month LIBOR indexed floating rate securities. The relationship between the indices in which the Company earns interest on its loans and funds such loans has a significant impact on student loan spread. This table (the right axis) shows the difference between the Company's liability base rate and the one-month LIBOR rate by quarter.

Variable student loan spread decreased during the three months ended March 31, 2014 as a result of recent consolidation loan acquisitions, which have lower margins but longer terms.

The primary difference between variable student loan spread and core student loan spread is fixed rate floor income. A summary of fixed rate floor income and its contribution to core student loan spread follows:

	Three months ended		
	March 31, 2014	December 31, 2013	March 31, 2013
Fixed rate floor income, gross	\$ 44,794	45,854	44,020
Derivative settlements (a)	(6,950)	(7,006)	(8,304)
Fixed rate floor income, net	\$ 37,844	38,848	35,716
Fixed rate floor income contribution to spread, net	0.59%	0.60%	0.59%

(a) Includes settlement payments on derivatives used to hedge student loans earning fixed rate floor income.

Fixed Rate Floor Income

The following table shows the Company's student loan assets that are earning fixed rate floor income as of March 31, 2014:

Fixed interest rate range	Borrower/lender weighted average yield	Estimated variable conversion rate (a)	Loan balance
< 3.0%	2.87%	0.23%	\$ 1,726,929
3.0 - 3.49%	3.20%	0.56%	2,074,849
3.5 - 3.99%	3.65%	1.01%	1,897,192
4.0 - 4.49%	4.20%	1.56%	1,430,798
4.5 - 4.99%	4.72%	2.08%	836,949
5.0 - 5.49%	5.24%	2.60%	573,901
5.5 - 5.99%	5.67%	3.03%	345,903
6.0 - 6.49%	6.18%	3.54%	400,247
6.5 - 6.99%	6.70%	4.06%	365,058
7.0 - 7.49%	7.17%	4.53%	151,669
7.5 - 7.99%	7.71%	5.07%	257,631
8.0 - 8.99%	8.17%	5.53%	608,080
> 9.0%	9.04%	6.40%	294,733
			\$ 10,963,939

(a) The estimated variable conversion rate is the estimated short-term interest rate at which loans would convert to a variable rate. As of March 31, 2014, the weighted average estimated variable conversion rate was 1.84% and the short-term interest rate was 16 basis points.

The following table summarizes the outstanding derivative instruments as of March 31, 2014 used by the Company to economically hedge loans earning fixed rate floor income.

Maturity	Notional amount	Weighted average fixed rate paid by the Company (a)
2014	\$ 1,750,000	0.71%
2015	1,100,000	0.89
2016	750,000	0.85
2017	1,250,000	0.86
	\$ 4,850,000	0.81%

(a) For all interest rate derivatives, the Company receives discrete three-month LIBOR.
